

Electromagnetic Testing Student Guide

Text Corrections

The following text corrections apply to the first printing of the *Electromagnetic Testing Lecture Guide*. The next printing of this publication will incorporate the corrections into the published text. Corrections are underlined>.

p. 76:

4. Fill factor = d^2 / D^2 (inside coil)

where d = coil winding outside diameter and D = test object internal diameter

or $\underline{d}^2 / \underline{D}^2$ (encircling coil)

where D = coil winding inner diameter and d = test object outside diameter
